Re: Case No.: 06-T-0650 - Application of New York Regional Interconnect Inc. for a Certificate of Environmental Compatibility and Public Need Pursuant to Article VII for a High Voltage Direct Current Electric Transmission Line Running Between National Grid's Edic Substation in the Town of Marcy, and Central Hudson Gas & Electric's Rock Tavern Substation Located in the Town of New Windsor

Dear Judge Stockholm and Judge Phillips:

New York Regional Interconnect Inc. ("NYRI") understands that some parties may be confused by NYRI's April 6, 2009 letter in this case. NYRI's April 6 letter was not intended to state anything different than what was stated during the April 3 hearing. However, to the extent further clarification is needed, NYRI confirms that it has withdrawn its application for a Certificate of Environmental Compatibility and Public Need pursuant to Article VII of the Public Service Law in Case No. 06-T-0650.

Please call me if you have any questions.

Very truly yours,

COUCH WHITE, LLP

Leonard H. Singer
